Achievements/Tasks

- STUDIO VIOLINA (10/21) This project is a stripped down version of wix where we give the user the ability to manage the data on the web templates that we provide them. It consists of basically three user roles - end user, admin and super admin. End user would be the one to surf the websites made by admin, admin would be the one to manage the data and its display, super admin is the main admin i.e the client to manage some critical things. Front-end - Angular, Angular material, Vex Design template Back-end - Node, Strapi - headless CMS, MongoDB
