PERSONAL PROJECTS

Twitter-Clone-API (01/2020 - 02/2020)

The main objective of this project is to understand how the API work

this project retrieve the tweets from Twitter API and fetch to the client-side and show them on the web page include image video it also supports three or four images on particular tweets

It interacts with Twitter API for retrieving the tweets through this project, I learned node.js, express, Javascript HTML CSS

GitHub link- <https://github.com/shrinivas48s/Twitter-Clone-API.git>

TIE (04/2020 - 05/2020)

The main objective of this project is to develop the Teach It

Easy website for reducing the gap between teachers and students. the basic idea is providing one to one tutoring or mentorship

In this project, I use HTML CSS, javascript at the front-end and back-end I am gone use the MERN stack

TIE is not completed yet it is in process

STUDIO VIOLINA (08/20 - 05/21)

This project is a stripped down version of wix where we give the user the ability to manage the data on the web templates that we provide them. It consists of basically three user roles - end user, admin and super admin.

End user would be the one to surf the websites made by admin, admin would be the one to manage the data and its display, super admin is the main admin i.e the client to manage some critical things.

Front-end - Angular, Angular material, Vex Design template

Back-end - Node, Strapi - headless CMS, MongoDB

FOREIGN ADMITS (12/21-1/22)

This website provides ancillary service, career planning, like study abroad , loans, accommodation, flight tickets, health insurance, travel insurance, loan, sim card, bank account.

Worked on- onboarding, commission module,landing page, kyc, apply loan,multiple users dashboard like student partner admin, get in touch from , login and sign up page for all type users.

Used tool- angular, bootstrap, ag grid , angular formly, angular material .

ACHIEVEMENTS

coding competitions

During my college, our seniors organized the coding competition in DSA. I got the second position in the coding competition

Teamwork and Leadership skill

In my college, I was part of the basketball team. Through basketball competitions I learn how to work with the team for better results. And also learn you can't win any competition or can not complete any task by own. you have to work with a team

SKILLS

Javascripts, Node Js, Express Js, Angular, Html, C++, Css, Positive attitude & confidence, Team coordination and Integrity, Good communication skill, Work ethics, Adaptability, Patience, Time Management.

LANGUAGES

ENGLISH

Full Professional Proficiency

INTERESTS

Artificial intelligence, swimming, adventure sports
